Yessine Choura

Computer Engineering Student – Networks and Security

Seeking a final-year internship (PFE) – February 2027

+216 97 187 123 | yessine1choura@gmail.com | LinkedIn

Computer engineering student at IIT (graduation expected in 2027), specializing in network administration and information security. Seeking a final-year internship in networks and cybersecurity starting in February 2027.

Education

International Institute of Technology (IIT), Sfax **2024 – 2027**
Engineering degree in Computer Science – Network Administration and Information Security (ARSI)

International Institute of Technology (IIT) **2021 – 2024**
Bachelor's degree in Software Engineering and Information Systems

Security and Network Project

PFA – Automated Security Incident Response **Feb. – June 2026**
- Configured pfSense, Shuffle workflows and Grafana dashboards as part of a team to automate IP blocking and monitor security alerts.
- GitHub | **Technologies:** Snort, Shuffle, pfSense, PostgreSQL, Grafana. Validated detection and blocking in a Kali Linux / Metasploitable lab.

Professional Experience

Internship – Secure Airport Baggage Management **July – August 2026**
Office of Civil Aviation and Airports (OACA)
- Developed a baggage management and tracking application; secured access using JWT, user roles, HTTPS and WireGuard VPN.
- Deployed with Docker and Kubernetes (K3s), hosted on an OVH VPS and validated network filtering.
- GitHub | **Technologies:** Angular 22, ASP.NET Core, PostgreSQL 16.

Summer Internship – Pharmacy Management System **August 2025**
Medicacom
- Developed user and role administration, and the pharmacy module: purchases, products, inventory, sales and report exports.
- GitHub | **Technologies:** PHP, Laravel 8, MySQL.

Student Management System Enhancement **Feb. – Aug. 2024**
Spark-It
- Enhanced authentication, settings and learning materials to address user needs and educational requirements.
- GitHub | **Technologies:** ASP.NET MVC, PostgreSQL.

Summer Internship – Job Application Platform **Aug. – Sept. 2023**
Revolusoft
- Developed a job application platform from planning to implementation: authentication, vacancies, job search and user profiles.
- **Technologies and methods:** PHP, UML.

Academic Projects

SfaxStore – Online Store **2025**
- Product catalog, shopping cart, favorites and order management.
- GitHub | **Technologies:** Angular 19, TypeScript, Tailwind CSS.

Event-Planner – Event Management **2025**
- Event and registration management with an administrator dashboard.
- GitHub | **Technologies:** PHP, Laravel 12, Tailwind CSS.

AutoWebStore – Online Car Sales **2024**
- Full-stack web application for online car sales.
- GitHub | **Technologies:** HTML, CSS, Bootstrap, MySQL, PHP, JavaScript.

Technical Skills

- **Network security:** pfSense, network filtering, WireGuard VPN, Snort, Kali Linux.
- **Application security and monitoring:** JWT, user roles, HTTPS, SOAR (Shuffle), Grafana.
- **Systems and deployment:** Linux, Docker, Kubernetes (K3s), OVH VPS.
- **Web development:** Angular, TypeScript, JavaScript, ASP.NET Core / MVC, C#, PHP, Laravel.
- **Data and scripting:** PostgreSQL, MySQL, SQL, Python, Java.
- **Tools and methods:** Git / GitHub, Postman, Visual Studio Code, Visual Studio, UML, Agile/Scrum.

Certifications

CCNA: Switching, Routing, and Wireless Essentials – Cisco **April 2026**
IT Specialist – Python – Certiport, Pearson VUE **October 2024**
Scrum Fundamentals Certified (SFC) – SCRUMstudy **May 2023**
IoT Training – IEEE IIT Student Branch.

Community Involvement

Google IIT, Sfax – Active member **2023 – Present**
Microsoft Tech Club IIT, Sfax – Active member **2023 – Present**
IEEE Student Branch IIT, Sfax – Active member **2021 – Present**

Languages

Arabic: native | **French:** advanced | **English:** fluent
